

# Artrageous!

A travelling exhibit presented by  
**Explorations V**  
Children's Museum  
Lakeland, Florida

A fun and engaging way to provide kids a hands-on approach to the arts. This travelling exhibit uses works of art from the masters to help children discover the elements of design in the visual arts.

## DESIGN – Piet Mondrian

Magnetic pieces can be placed on the white board to allow visitors to create their own design, similar to the works of Piet Mondrian.

### Educational Messages

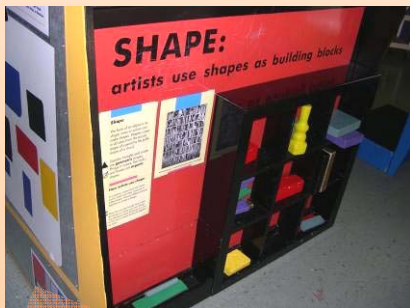

Balance, Design and Composition  
Art History

## SPACE - Georges Seurat

Characters of the Seurat painting are magnetic and can be placed in the proper location of the painting. This provides a perspective lesson. Georges Seurat is the preeminent master of the pointillism style of painting where small flecks of paint create an image.

### Educational Messages

Perspective; Space created in two dimensional images  
Painting technique (pointillism)  
Art History

## SHAPE - Louise Nevelson

Blocks can be assembled within the cubby holes to create a design similar to the works of Louise Nevelson.

### Educational Messages
